Cisco Packet Tracer - Networkii

https://www.netacad.com/courses/packet-tracer

Who Uses Packet Tracer?

- Networking Curious & Aficionados
- CCNA, CCNA Security and CCNP Students
- Engineers, Educators, & Trainers
- Those looking to get into IoT

Use it to

- Create virtual networks
- Experiment while building, managing & securing infrastructures
- Visualize internal processes in real-time
- Apply skills with labs & interactive activities

It's Free

Simply enroll into Introduction to Packet Tracer course to download the latest version of Packet Tracer.

Community

- Collaborate and compete within Packet Tracer
- Share network designs for feedback
- Share network designs on Packet Tracer

Tuesday with our Facebook community of global students

Get Started

Enroll, download, and get started learning valuable tips and best practices for using Packet Tracer with our brief introductory course, available for desktop or mobile.

Online self-paced
Intro to Packet Tracer

Introduction to Packet Tracer

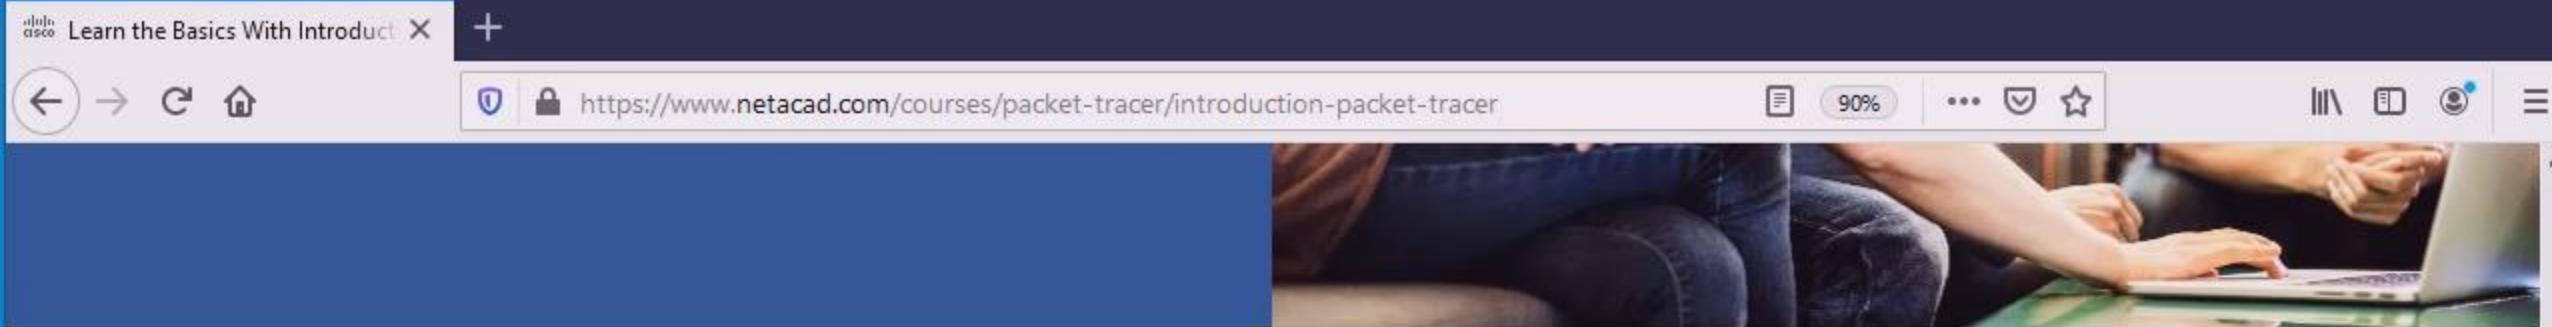

Discover and troubleshoot using powerful networking simulation tool.

Hands-On Practice

Enroll, download and start learning valuable tips and best practices for using our innovative, virtual simulation tool, Cisco

Length: 10 hours

Hands-On Practice

Enroll, download and start learning valuable tips and best practices for using our innovative, virtual simulation tool, Cisco Packet Tracer. This self-paced course is designed for beginners with no prior networking knowledge. It teaches basic operations of the tool with multiple hands-on activities helping you to visualize a network using everyday examples, including Internet of Things (IoT). This Introductory course is extremely helpful for anyone who plans to take one of the Networking Academy courses which utilizes the powerful simulation tool. No prerequisites required!

You'll Learn These Core Skills:

- Simulate data interactions traveling through a network.
- Visualize the network in both logical and physical modes.
- Apply skills through practice, using labs and Cisco Packet Tracer activities.
- Develop critical thinking and problem-solving skills.

Download Cisco Packet Tracer

The best way to learn about networking is to do it. Cisco Packet Tracer, an innovative network configuration simulation tool, helps you hone your networking configuration skills from your desktop or mobile device. Use Packet Tracer to:

- Sharpen your skills for a job interview
 - Prepare for a certification exam
 - Practice what you learn in networking courses

PTSA SSL Certificate Issue Update

July 2020 Update for CCNA Routing & Switching 6.0 courses, CCNA Security 2.0, Networking Essentials 1.0, and CCNA ITQ 2.0.

Some academies may experience issues with older versions of the PTSA exams. Students with Packet Tracer v 7.1.1 need to perform the following 3 steps prior to taking the PTSA exam:

- Step 1: Download the PKA file and Instructions
 - Step 2: Follow the instructions in PDF file
 - Step 3: Proceed to access the PTS exam

August 2020 Update for CCNA Routing & Switching 5.0

Some academies may experience issues with older versions of the PTSA exams. Students with Packet Tracer v 7.1.1 need to perform the following 3 steps prior to taking the PTSA exam:

- Step 1: Download the PKA file and Instructions

When using Packet Tracer 7.3.0+ for CCNA 6, there is a small possibility you may encounter a warning message.

If so, you may disregard the message. It is simply a warning that scripts in this file need to be updated for Packet Tracer 7.3.0+ compatibility.

The image shows the Cisco Networking Academy landing page. At the top left is the Cisco Networking Academy logo. In the center, there's a large graphic of a green network cable ending in a plug, which is inserted into a blue brain, symbolizing learning and connectivity. Below this is a callout box for 'Packet Tracer' asking if the user wants to run multi-user when the application starts, with 'Yes' and 'No' buttons. The main content area features several images: two people talking, a group outdoors, a person working on a computer, and a room full of people. Below these images is a horizontal bar with text: 'Courses in 20+ Languages', 'Hands-On', 'Flexible Delivery', 'Supports Personalized Instruction' (highlighted in green), 'Simulations', and 'Hackathons'. A large lightbulb icon with a network symbol inside is positioned on the right. The text 'Integral to the Skills-to-Jobs Learning Experience' is centered at the bottom. At the very bottom left is the copyright notice '© Copyright Cisco 2020'.
